**WHY EXHIBIT / MARKET STATS**

The South East is the natural location for Londoners looking to start a family. The practice of selling up in the city to move out to a bigger location, for more space and to start a family is a well-trodden path.

Additionally, the South East is abundant with affluent commuters, ABC1 business people & families. And as such, the South and South East is the perfect location for Women in

Business Expo, targeting career minded women, looking for the next opportunity.

ONS figures show 4.9m mothers in England with dependent children are in work in 2017, up from 3.7m in 1996. The Office for National Statistics said there had been a step-change in the employment rate for working mothers since records began in 1996 with almost three-quarters

of women with dependent children either in full-time or part-time work.

Visitors are clearly directed to the new exhibition hall, and enjoy free parking. A free crèche will be on offer for mums, and a free welcoming coffee and Danish pastry. In the afternoon the prosecco bar will offer a free glass of prosecco.

**Entry will be free!**
